# ACTatek Temsen

Temsen is a medical-grade infrared human body thermometer, it has been carefully developed for accurate, safe, fast, and contactless human body temperature measurements in a simply way. Equipped with a high-precision proximity sensor, Temsen detects the distance to make sure the object is in the measurable range for temperature reading.

### Specification :

Power supply: 12VDC

Interface: RS232/RS485

Measuring range: 35.0 °C - 42.8 °C

Abnormal alert: 37.5 °C - 38 °C Red LED Lights

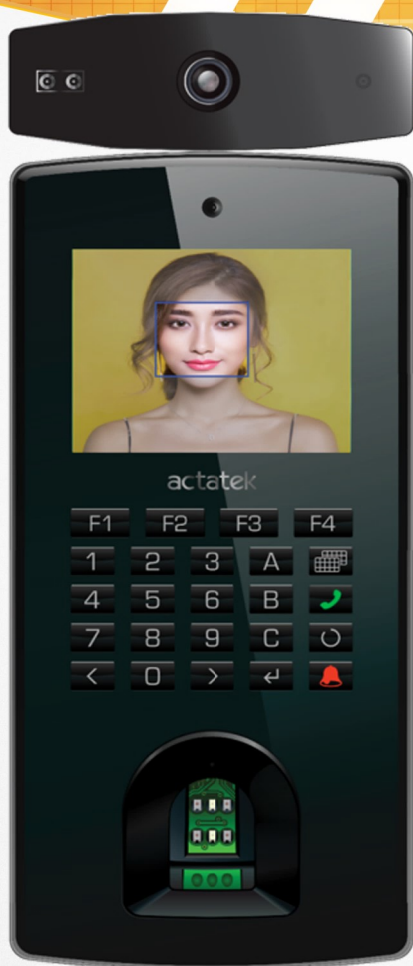

Fever alert: 38 °C - 42.8 °C Red LED Blinks

Measuring distance: 10CM - 25CM

Accuracy: +/-0.2 °C

Speed: 600mS

Disclaimer: This product is not intended to diagnose or monitor any medical condition or illness, and should not be used as such. The product is supplied as a first-line filter for organisations that wish to identify those entering premises who may have an elevated body temperature. Medical advice should be sought if there are concerns around illness, and further checks will be required.
