

The Leading Web-Based, Biometric and RFID Smartcard Platform for Enterprise-Wide Solutions in ID Management.

- ID Authentication
- Security & Access Control
- Payroll
- Time Attendant
- Visitor & Contractor Management

## Unique Web- and Cloud-based Card Reader Solution

Access Control, Time Attendant, Payroll and Work Force Management

Features	Technical Specification
MiFare Technology	
Operating Distance	3 - 3.5 CM
Type of cards (4 bytes / 7 bytes)	MiFare Classic /DESFire/Ultralight
Standards	ISO 14443A/B , ISO 15693
Operating Frequency	13.56MHz
EM Technology	
Operating Distance	Up to 8 CM
Standards	EM 4001 compatible
Operating Frequency	125 KHz
HID Technology	
Operating Distance	3 - 3.5 CM
Type of cards	HID iClass / SE / HID Proximity
Operating Frequency	13.56 MHz / 125 KHz
Felica Technology	
Operating Distance	3 - 3.5 CM
Standards	ISO/IEC 15408 EAL4
Operating Frequency	13.56MHz

### IP reader Technical Specifications

Features	Technical Specification
Operating Interface	TCP/IP (100 Base T)
Input / Output	Door strike x 1    Wiegand output x 1 Door switch x 1    (standard 26bit) Door sense x1
Dimension (L*W*H)	85x115x30mm

### Cloud Application managed by Access Manager Suite

Introducing the **NEW ACTAtek IP-based External Smart Card Reader**, the latest ACTAtek Hardware available for your ID management platform needs.

#### What is it ?

It is a device which is able to work effectively with Access Manager Suite , allowing you to install large-scale External Smart Card readers in ONE system. The best cost-saving solution for your smartcard-reading needs!

Also, this device can be used together with not just Access Control, but also with the Time Attendance system!

#### Why JakinID ?

JakinID provides a perfect hardware platform for your workforce-management applications, giving your end-customers a real-time, biometric/smartcard authentication, security based on location/time-based access control, time attendance-reporting, leave management, workflow management for visitors/contractors, shift roster scheduling and payroll. It also gives your end-user the added benefit of a robust and reliable access control and time attendance solution in one platform.
